Aggcorp provides equipment systems

to the **aggregate**, **forestry**, **environmental** and **recycling** industries.

Sales and rental of top-quality, hard-working equipment from leading manufacturers. Applications experts who know how to create the custom solutions that will maximize your efficiency and productivity.

Parts, service and unrivaled ongoing support.

The *whatever it takes approach* to getting the job done.

Your answer is

Parts and Service

Aggcorp knows that your business depends on up-time and the most efficient service you can get. That's exactly what we're building our reputation on.

Powerscreen® Crushers

Cutting-edge Powerscreen® mobile crushers are designed to operate in the harshest environments, driving powerful productivity in the demanding quarrying, mining and recycling industries.

JAWS

IMPACTORS

CONES

- Fuel efficient
- Pre-screens to remove fines
- Under pan feeders to protect belts
- Hydraulic release systems to minimize damage
- Conveyors that raise and lower for access to clear blockages.
- From transport to production in minutes

RECYCLING |

Powerscreen® Screeners

World-class Powerscreen® mobile screening equipment is your reliable choice across a full spectrum of material processing applications. The tough, reliable choice, with a model designed to handle virtually every material.

HORIZONTAL

INCLINE

- Fuel efficient
- High frequency or aggressive throw
- 2 or 3 decks: up to 6ft. x 20ft.
- Adjustable screen angle
- Jack up screen boxes for access
- Belt or apron feeders

Telestack® Material Handling

Telestack® is the state of the art in mobile bulk material handling systems. A versatile array of products engineered to enhance operational efficiency, maximize flexibility, and minimize environmental impact.

- Tracked and radial conveyors
- Mobile reclaim hoppers
- Ship loaders
- Radial telescopic conveyors
- Hopper feeders
- Truck unloaders

Terex® Minerals Processing Systems

Terex® Minerals Processing Systems provides a complete range of stationary, modular and mobile crushing and screening equipment. We understand your business and are dedicated to offering cost-effective solutions for the long term.

JAWS | **IMPACTORS** | **CONES** | **VSI's** | **SCREENS**

- High production
- High efficiency
- Low maintenance
- Producing cubical shaped products
- Equipment made to last
- Low cost per ton

Evoquip[®] Crushing and Screening

EvoQuip offers a comprehensive range of compact crushing and screening equipment to help contractors reduce costs and become more efficient.

JAWS

IMPACTORS

SCREENS

- Fuel efficient
- Easy to transport
- Less paperwork
- Reduce your dump fee costs
- Crush and screen on site
- Turn dump fees into profits

RECYCLING

MDS Trommel Screens

MDS offers a unique range of extra heavy duty mobile and stationary trommel screens. Screen material you never thought was possible.

TRACKS | WHEELS | STATIONARY

- Screen sticky material
- Reduce crushing costs drastically
- Produce rip rap
- High production
- Low operating cost
- High efficiency

EDGE® : Innovation at Work

With our ethos of “Innovation at Work” EDGE persist in pushing the boundaries of design and manufacturing to produce hard working, quality machinery to fit any materials handling requirement from Recycling to Quarrying.

- Trommels Shredders Picking Stations
- Truck Off-loaders Material Classifiers Fines Recovery Plants
- Mobile and Tracked Stackers, Stockpilers, Conveyors and Tracked Feeders

Peterson® Chippers & Grinders

For more than 30 years, Peterson® has been a trusted name in machines that turn low-grade organic materials into high-value products. Peterson is committed to delivering high production at the lowest cost per ton in the industry.

GRINDERS

- Peterson's Adaptive Control System
- Three stage grinding process
- Innovative latching Impact Release System

CHIPPERS

- Peterson's Adaptive Control System
- Drum with either 6 or 12 knife pockets.
- Sloped feed deck for ease of feeding longer or whole tree feed stock

Neuenhauser Star Screens & Trommels

Neuenhauser's industry-leading portable screening technology is designed to provide high throughput, economical operation and easy maintenance. An ideal solution for the screening of wastes, recyclable materials and biomass.

- 2 or 3 way configuration
- Optional star sizes
- On wheels or tracks
- Massive production capability
- Fuel efficiency from 1.5 gallons per hour
- Low feed height enables direct feed from a grinder
